

Capabilities Overview

Rapid Delivery • Deep Government and Functional Knowledge • Sustained Value

INTEGRITYOne Partners provides Government-focused Business and Information Technology (IT) Consulting Services that anticipate and innovatively address Federal mandates and Agency mission needs. Our professionals average 12 years of experience and are equipped with the knowledge, wisdom, and skills to create and deliver solutions based on realistic strategies, cutting-edge technologies, and innovative concepts.

We continually achieve high client satisfaction by partnering with our clients to develop and deliver solutions that drive mission performance. Our reputation for integrity and trust has been established by placing our client's needs first and delivering on our commitments.

Business Consulting

INTEGRITYOne **Business Consulting Services** focus on helping clients accelerate business performance by delivering value-added services rapidly and cost effectively.

Strategy

We help clients understand the complexities of their enterprise, shape their future direction, and develop executable strategies and solutions to enhance the operational effectiveness, efficiency and management of their organization. Strategy service offerings are:

- Strategic Planning / Execution
- Performance Management
- IT Strategy
- Organizational Development

Transformation

Federal government executives are faced with a fast changing and challenging landscape. To meet their mission, a holistic approach to planning, managing, and executing transformation efforts is required. Transformation service offerings are:

- Transformation Strategy
- Transformation Planning
- Business Process Reengineering
- Change Management

Program & Project Management

We help clients deliver sound management practices that drive performance and provide government project managers and executives with the tools and visibility they need to run successful projects. Program and Project Management service offerings are:

- Program / Project Planning
- Program Management Office Support
- Risk Management
- Schedule Management
- Budget & Financial Management
- Acquisition Planning
- Performance Management
- Quality Management

Governance

Building on existing strengths, we work with government executives to establish a governance structure to select and drive performance from the right portfolio of projects. Governance service offerings are:

- Governance Assessment
- Board Implementation & Management
- Portfolio Management
- Investment Management
- IT Governance
- Data Governance

IT Consulting

INTEGRITYOne **IT Consulting Services** focus on helping clients adapt their business environment to high-performing technologies, tools, and IT assets designed to streamline technical operations, reduce costs, enable flexible architecture, tighten end-to-end integration, and improve information sharing.

Enterprise Architecture

We collaborate with clients to align IT with business needs by combining practical application of architecture with deep understanding of technology. We envision to-be architecture and provide the necessary substance which allows effective transition from as-is through sound decision making processes. Enterprise Architecture service offerings are:

- Tactical Architecture
- Service-Oriented Architecture
- Infrastructure Architecture

Information Sharing

We identify and implement innovative technologies and apply advanced architectures that create new information sharing capabilities and transform business operations. Information Sharing service offerings are:

- Information Sharing Services
- Information Sharing Protocols
- Data Extraction and Transformation
- Enterprise Collaboration and Knowledge Management
- Enterprise Portals (e.g., SharePoint / Vignette)

Service-Oriented Solutions

We design and implement advanced technologies that allow our clients to realize the full value of service oriented architecture, introducing new levels of business flexibility and rapid response to changing business climates. Service-Oriented Solutions service offerings are:

- Business Process Driven Design and Implementation
- Business Process Orchestration
- Service Orchestration and Mediation
- Enterprise Service Bus Design and Implementation
- Web Services

About INTEGRITYOne Partners

INTEGRITYOne Partners is an integrated consulting services firm. Founded in 2001, INTEGRITYOne Partners has grown to offer a broad range of Business Consulting and Technology Solutions services in the public sector, where the firm possesses proven expertise. We retain small business status and currently fit under the \$7M size standard for FY2009 and will be under the \$25M size standard for FY2010.

The INTEGRITYOne Partners mission is to exceed clients' expectations by building and maintaining trusted relationships and delivering integrated services that improve clients' abilities to achieve their agencies' mission objectives.
